

Here is a snapshot of how to submit your revisions if you received a Plan of Improvement for your 2<sup>nd</sup> Portfolio.

- Upload your revision to the Standard that needs a revision, for example, if you need to add something to Standard #3, first upload your revision under InTASC Artifacts, Standard #3 (the same way you uploaded your original document.)

Once you have uploaded revisions to all standards that were listed on your Plan of Improvement, follow the simple steps below. Please let me know if you have questions or need help.
